

Muhammed Kadic

I am currently expanding my knowledge into IOS Development and C# and attempting to produce my own 2D platform game before the end of this year. All my contact information is below.

SKILLS (Hyperlinked links below redirect to my work.)

[Front End Development](#) - 3+ Years of using html, css and javascript.
NoSQL & SQL - 4+ years with sql and 3 years with mongodb and nodejs.
Understanding of Java - Used java for 4 years to code minecraft applications.

[Bootstrap Experience](#) - This is a fairly new framework that I have learned through school and it makes things so much easier for scalability.
IOS Development - Developing a game has always been a passion of mine and I have taken it upon myself to create 2D platformer game that I will publish to the app store as well as add to my portfolio.
C# - I have only been introduced to C# through IOS game development and I am currently trying my best to learn at the fastest and most functional rate I can.
